ACC Accounting Solutions has been teaching Microsoft FRx training classes since 1998, and we are the largest Microsoft FRx Authorized Training Center in the country. That being said, it boils down to having a long history with the product, and a class in a city very close to you. Below are the cities we will be in for the next few months, and if you would prefer us to come to you we can do that too. We regularly work with companies on rebuilding their chart of accounts and help deliver a report distribution process that reduces precious closing time at the end of each accounting period, so just call us at 866-FRX-FRX9 (866-379-3799). Our experience crosses over different industries, profit, non-profit, service, distribution, financial and health companies. Our engagements can be online with a remote connection or onsite live with your staff. If you want we can help you build your reports from the ground up or just polish what you have. In essence our projects can help you have control, control of how and what information is available, who can receive it, and how you deliver it. Would you like more information, than call us @ 866-FRX-FRX9 (866-379-3799) Need FRx Consulting - 866-FRX-Frx9 (379-3799) - We are your source of Microsoft FRx Reporting, Training, Consulting, and Support.
