

Need training fast!

[Home Page]Do you need to take a training class now, but our schedule does not show a class that can meet your needs? We have two options for you: Take a Live Web class, or Onsite Training. ACC Accounting Solutions offers web classes for students when the travel or time is not an option. The class is taught with a live instructor, and the comments back have been called "excellent" and "very convenient". Onsite Training - Well nothing can be as convenient as us coming to your office. You supply the conference room and a workstation for each student and we do the rest. Our instructor will call you to talk about the training content you want the staff to learn and then we create the course specific to just your needs. Cost and time efficient, Simple!If you think either of these are an option for you than just lets us know by sending an e-mail to Sean Atkins satkins@4acc.com and we will send you information on when we will be holding the class.Can't make it to class? WANT TO BUY A TRAINING GUIDE?

Don't see a class listed for when you want to take it? E-mail us at satkins@4acc.com and we will schedule one. We only need to have 5 students to have a class. Prefer training in your own office? E-mail or call us, and we will schedule it for you. 559-435-9000 x101
