

Summer 2010 Promotion

Summer 2010 Promotion:

Go ahead take advantage of the slow time this summer, and ACC is going to make it more attractive to do so. From June 1st to August 31st 2010 our office will be promoting a lower daily rate for all onsite FRx and Forecaster projects. Now is the time to book your favorite instructor to visit your office and get the projects done that you always wanted to get done but just could not find the time. Take 25% off all on-site work – need to re-train the staff, have us come onsite, want the budget variance report to show the signs in the correct format, needing to re-clean up the FRx Catalogs and perform all of the administration needs to keep you going strong. We can do it. Download the Onsite Registration Form, fill it in and fax it back to the office. We will call you to schedule the days needed, and it is that easy, just like sitting back and drinking a nice cold glass of lemonade. Have a great summer Sean Atkins 866-FRx-FRx9 (379-3799) [Click here for the summer promo for the Onsite Registration Form](#)
