Microsoft Forecaster Training

FRx Consulting Solutions

"Financials will be more accurate and done in a more efficient timeframe" - *Michael, Asst Controller*

"No one in my company really knows FRx-reports were designed by old VAR several years ago. Now I have the knowledge & great reference material, Thank you." - *Linda, Accounting*

"We can now automate our summary financials we currently download to excel." - *Heather, Accounting*

"Class gave me many ideas and examples on how to improve our financial reporting" - *Karen, Controller*

Did You Know?

ACC offers Onsite Training Classes. The Microsoft FRx Report Design Essentials I & II classes, as well as the Microsoft Forecaster Essentials I & II can be custom tailored to your companies needs. This is ideal for companies thinking of training five or more employees. To find out more call your Education Account Representative or read more on our website.

Microsoft Management Reporter

As Companies begin to roll out the Microsoft Management Report, so does ACC. ACC can assist you with Training, Installation and Migration services for the Microsoft Management Reporter.

Ask your Account Representative now for more information.

Need other training?

ACC also offers Sage Certified training live over the web for Sage MAS90/200. Classes include training on the Core Modules, Distribution, Manufacturing, Navigation and Crystal Reports.

Ask your Account Representative now for more information.

Keeping the Standard

XBRL Deadline Approaches

Currently only 1,440 companies are reporting to the SEC using XBRL. The SEC estimates approximately 15,000 companies are traded publically; leaving over 90% of publically traded companies not reporting in XBRL. June 2011 sets a new deadline where these companies must be reporting to the SEC in XBRL format.

See how FRx can help you through these changes.

Holiday Special

Sign up now till December 31st for a special discount rate on any Onsite Consulting or Onsite Training scheduled from November 1st to March, 31 2011 for only \$1395 a day.

Our Consultants can help design and streamline the budgeting process with our expertise in Microsoft Forecaster, Microsoft FRx Report Writer and linking to excel. New reports at Year End, and new Reporting Requirements for 2011 can all be designed by our Reporting Experts giving you ease of mind as you enter the new year.

Simply fill out a **Registration Form** and contact ACC for availability.

Microsoft Forecaster Training

Microsoft Forecaster makes it easy for businesses to realize the benefits of a budgeting and planning application. The application can be implemented quickly to provide users with immediate control of the entire budgeting and planning process.

ACC offers Live Web Training and Onsite Training on the Microsoft Forecaster. Keep an eye out for these classes to be added to our monthly schedule!

Microsoft Forecaster E1

Microsoft Forecaster E2

Registration Form

With the Microsoft FRx Report Design Essentials I training class, new users, novices and even long time users can gain a lot of value from learning with our Microsoft developed training class, using basic reports to learn the power of developing a solid foundation of the application.

While the Microsoft FRx Report Design Essentials II training class offers past E1 students and long time users a new and unique perspective on the FRx software, truly bringing their reports "outside the box".

The E2 Express! (EE2) class will cover the most requested topics of the normal two day Essentials II class in one day. Topics will include; Worksheet Linking, Row Format Linking, Working with Full Account Codes, Cash Flows, Allocations and Consolidations.

Feel free to contact us regarding the dates, and if you are unable to get out of the office look at the **Live Web** Classes as the best solution for a busy schedule.

Contact us at: **866-FRx-FRx9** - 866-379-3799 or sign up now!
