**Sage AP Automation**

Sage Tech Partner Plus

Streamline AP for Accounting Teams

Sage AP Automation helps AP teams run more efficiently, and spend less time on manual, error-prone tasks like data entry.
Centralize AP online for multiple locations & legal entities
Save time matching POs to invoices & receivables

Automate approval routing for POs, invoices, expenses & payments

Quickly find any AP document & see all workflow steps

Easily approve & release vendor payments & expense reimbursements

Reduce errors & mitigate risk with stronger AP controls

Visibility and Control for Your Entire AP Process

Eliminate 83% of data entry, with AI-powered header and line item data capture, so your team can focus on higher-value tasks. Gain 360-degree visibility and control of all four AP workflows in one place - from POs, invoices, and expenses, to online payments
